

WGH India Dialogue Series: Engagement of Frontline Health Workers in COVID-19 Response in India

First session (8th June 2020, 1830-2000 hours IST) Perspectives of Community-level Stakeholders: bringing together the voices of FLWs, civil society organizations, journalists, and researchers. The speakers will highlight the contributions and challenges of these workers while performing COVID-19 related tasks.

Second session (10th June 2020, 1830-2000 hours IST) Perspectives of State-level Stakeholders: bringing state level government and civil society representatives who are engaging FLWs in COVID-19 related tasks. The speakers will share their perspectives about state-specific initiatives (being) taken for the effective engagement of FLWs.

Third session (12th June 2020, 1830-2000 hours IST) Perspectives of National-level Stakeholders: bringing national-level government and development partners representatives involved in shaping the policy decisions that guide the involvement of FLWs. This session will focus on highlighting key policy responses, what has worked, what hasn't and the way forward.

Based on the three virtual dialogues, WGH India will engage with specific actors in the health system and the development sector to take forward the issues identified.

Amplifying contributions of FLWs in India's Covid-19 response
