No./A.I.G.N.F./22 /2021

Dated 20 -05-2021

To,  
Shri Narendra Modi ji,  
Hon'ble Prime Minister,  
Government of India.  
New Delhi

**Subject: Regarding urgent vaccination of nurse's family member at their work place or the nearest vaccination canter in whole India**

Esteemed Sir,

Greetings from all India Government Nurses Federation.

All India Government Nurses Federation (AIGNF) represents to all the registered Trade Union of Nursing professionals all over India and these are our affiliated units i.e. Central & State Government, Union Territories /Administration, Railways/ ESIC (Under Ministry of Labour & Employment, Government of India)/Municipal Corporation/ Autonomous ,Bodies/Statutory Bodies (Financed by Central & State Govt.) Delhi State Contractual Employee Association /Nurses organizations/Public Health Nursing Services and Nursing education across the Country.

**This matter is raised by our many affiliated units.**

Our federation raised many issues of nurses in the past with the Government and are always sympathetically considered by the Government. **Now, we want to bring the other burning issues to your knowledge with hope** that issues would be resolved by you on a priority basis i.e., urgent vaccination of nurse's family members at their workplace or the nearest vaccination center in whole India.

All the Nurses of India as well as abroad are working with dedication from the onset of pandemic COVID 19 and even since the beginning of profession. remain safe and healthy even in this current Pandemic. Nurses are on the front lines and the risk being exposed to COVID-19 and many other infections each day at the workplace is much higher. At this current time, getting a COVID-19 vaccine is an important step to prevent getting illness with COVID-19 disease. Healthcare personnel and nurses are among the first to receive the vaccine because their role is essential in fighting this pandemic.

**COVID-19 vaccines are an important tool to help stop the pandemic.**

Nurse families are exposed to COVID 19 risk compared to other common families because nurses became carriers of infection to their home. AIGNF requests that the necessary guidelines to be formulated and implemented uniformly all over India that **vaccination of nurse's family members at their workplace or the nearest vaccination center in whole India should be done as earliest.**

However, AIGNF also appeal to the public that even after vaccination, to adhere to the Covid-19 appropriate behaviour like wearing masks, maintaining physical distancing, hand hygiene etc,"

Sir, this issue requires your urgent and special attention. Positive and satisfactory outcome is solicited after your intervention.

With regards  
Yours Sincerely,

**MRS. G.K. Khurana.**  
**Secretary General All India Govt. Nurses**  
**Federation Dr. RML Hosp. New Delhi**
