Joshi, Dilip	157	Sengupta, Jogens	89
Mankad, Dhruv	43, 105	Vrijendra	90
McDonald, Catherine	135		

Why don't you write for us?

This periodical is a collective effort of many individuals active or interested in the field of health or interested in health issues. The chief aim of the journal is to provide a forum for exchange of ideas and for generating a debate on practical and theoretical issues in health from a **radical or marxist** perspective. We believe that only through such interaction can a coherent radical and marxist critique of health and health care be evolved.

Each issue of the journal highlights one theme, but it also publishes (i) Discussions on articles published in earlier issues (ii) Commentaries, reports, shorter contributions outside the main theme.

Our forthcoming issues will focus on: Health Care in Post-Revolutionary Societies, Primary Health Care, and Medical Technology.

If you wish to write on any of these issues do let us know immediately. We have to work three months ahead of the date of publication. A full length article should not exceed 6,000 words and the number of references in the article should not exceed 50. Unless otherwise stated author's names in the case of joint authorship will be printed in alphabetical order. You will appreciate that we have a broad editorial policy on the basis of which articles will be accepted.

We have an author's style-sheet and will send it to you on request. Please note that the spellings and referencing of reprint articles are as in the original and are NOT as per our style.

We would also like to receive shorter articles, commentaries, views or reports. This need not be on the themes we have mentioned. These articles should not exceed 2,000 words. Please do write and tell us what you think of this issue.

All articles should be sent in duplicate. They should be neatly typed in double spacing, on one side of the sheet. This is necessary because we do not have office facilities here and the press requires all material to be typed. But if it is impossible for you to get the material typed, do not let it stop you from sending us your contributions in a neat handwriting on one side of the paper. Send us two copies of the article written in a legible handwriting with words and sentences liberally spaced.

The best way to crystallise and clarify ideas is to put them down in writing. Here's your opportunity to interact through your writing and forge links with others who are, working on issues of interest to you.

WORKING EDITORS

Please send me Socialist Health Review for one year (four issues). I am sending Rs. _____ as subscription and/or donation by Demand Draft/Cheque. (D D and cheque in favour of Socialist Health Review and for cheque add Rs. 5, if outside Bombay).

Cancer Research

My agonies
are fed
into a computer
together
with five thousand
other women's
tears
terrors
hopes
relief
and despair.
We have been
categorised properly
to fit in nicely
there will be
a deathrate of course,
that is failure,
but most of us
will be a success
of modern science
and technology
of medical competence
and human endeavour
only no one
will measure
our resilience,
our love of life,

and the worries
about our children
There is no number
for the humiliations
we face when
they screw us open
to paint our uterus
from the inside
No one counts
the needles poked in,
the tubes inserted,
the bloodstained pads
the fact that
we will never be
the same again
making love.
And we are
grateful to them
for the tortures
inflicted
for they save
our lives
and we wonder
how they can live
doing this
every day.

—Gabriele Dietrich
January 1986
Bangalore

*The poem in the issue 11:3 was by Sachi-
danandan. We regret the omission.*
